DESIGNATIONS & CONTRACT VEHICLES

OVERVIEW

Our team offers tenant-to-desktop support with expertise directly supporting Microsoft technologies including desktop applications, enterprise solution architecture and engineering, large-scale data migrations, as well as managing enterprise software implementations and custom product development. Our team of technical SMEs and Professional Project Managers efficiently address the most complex challenges in enterprise cloud computing and infrastructure management within the Homeland Security and Federal civilian landscape. Our goal is to exceed your goals and expectations.

CORE COMPETENCIES

- Architecture & Engineering end-to-end M365 solutions.
- PowerShell Scripting
- Azure Identity & Access Management
- Tier 1 & Tier 2 Service Desk Support
- Security & Compliance
- Enterprise Data Migrations
- System Health Monitoring
- Project Management & Oversight
- On Premises & Hybrid Support
- Product Development

CLIENT ACCOLADES

"[I am so] grateful for the extraordinarily talented senior M365 support specialist who is a member of CBP's Enterprise Infrastructure and Operations team. She [went] the extra mile to help others and truly cares."

PAST & CURRENT PERFORMANCE

Our premier team of experts have provided engineering and support for on premises installations and M365 migrations for traditional DHS, DoD and federal civilian agencies including Federal Emergency Management Agency (FEMA) and the Department of Justice (DOJ). In addition, our Engineering and Service Desk teams currently provide tenant-to-desktop Microsoft 365 support for approximately 80,000 users and 100,000+ mailboxes.
